CHAIN OF CUSTODY

This evidence bundle is generated by SHIELD.ai with tamper-proof cryptographic hashes. The SHA-256 hash uniquely identifies this file and can be used in legal proceedings to prove authenticity. All timestamps are ISO 8601 compliant and court-admissible.

LEGAL ADMISSIBILITY

- Digital evidence collected under Section 65A of Indian Evidence Act
- Hash values provide proof of integrity (no tampering)
- Timestamp provides temporal proof (evidence of discovery)
- Admissible in Indian courts as forensic evidence
- Complies with IT Act 2000 Section 94 (electronic records)
